PROCESS ONLY

	C-41	B+W
120 + 35MM	£5	£6
5X4	£5	£6
10X8	£6	£7

All our processing is done onsite, we have a C41 dip and dunk, which is the safest method for handling your film. Our black and white is processed using the traditional handline dip and dunk method. We process all formats of film with no additional costs for pushing or pulling your film. Pushing your film will result in a longer turnaround time.

Noritsu and Fuji Fronteir – 35mm/120

Both of these industry standard scanners are high volume film scanners. They are used for roll scanning and individual images. Image files range from as small as 4mb to 40mb per frame and can be exported in both JPEG and TIFF. Our low res scans are used mostly for selection and preview. Please see sample sizes below. TIFF's are charged @ £1 extra per roll.
